THE StageSHIFT COACHING CERTIFICATION PROGRAM

StageSHIFT invites you to a Consciousness-Raising Vertical Coaching Certification Experience

Welcome! I'm delighted to offer the 8th StageSHIFT Coaching Certification Program beginning with INDUCTION on Wednesday 1 September 2021 at 4pm CET; 8am PDT.

It has been described as one of the most comprehensive and enriching Coaching Certification Programs, unrivalled in its blend of science and applied wisdom, and its capacity to stimulate and expedite vertical evolution of the heart, mind and soul. The proven StageSHIFT approach integrates 3rd Generation Transformative Coaching with Later Stage Vertical Leadership Development to elevate the leadership capacity and effectiveness of strategic leaders.

Vertical leadership development is the current wave of change in leadership development today due to the urgent need for strategic leaders to shift to later stages so they can cut through complexity, transcend volatility and lead the co-creation of a more sustainable, healthy, equitable and joyful world.

Less well known is the *knowhow to shift to these later stages in just one-two years.*

This is a 12-month Program where you will receive:

- 9 Modules of Self-Study Learning, each with 3-4 Videos (est. 120-mins) and selected Articles, mostly from the HBR, to enrich your understanding (Total 36 hrs)
- 20 Live 120-min Deep Discovery Dialogues with Dr Antoinette Braks to inquire further and integrate new insights through personal experience and case studies (40 hrs)
- 9 Coaching Rehearsals with different peers to experiment with the Transformative StageSHIFT Coaching approach in Vertical Leadership Development (18 hrs)
- 3 Vertical Assessments, 2 pre- and post-LDPs including the accompanying StageSHIFT Journey Report, and the Vertical Holistic Leadership Profile (VHLP) mid-way, with 3 individual Discovery Debriefs with Antoinette to personalise your vertical evolution (12 hrs)
- A private Group Community Channel to connect with other participants and share observations and experiences, and receive Community updates.

The modules cover Strategic, Holistic and Transforming Leadership following a unique method distilled from an extensive doctoral research study exploring the shifts to later stages. They are delivered across three terms with breaks in April, August and December.

The *StageSHIFT Engine of Vertical Evolution* integrates *Intention* to accelerate emergence, *Interaction* to co-create community and *Integration* to liberate potential.

2021 will be the Program's third year and this will be our 8th cohort. Each year the Program has been refreshed and upgraded to optimise the learning experience for you, the participants. If you aspire to make a bigger difference in shaping the evolution of the world and are committed to leading a more flourishing and fulfilling life as an executive coach or leadership development executive, ***I believe this is the most valuable investment you can make in yourself, your work, the people you serve and society at large.***

Do read the testimonials to find out more about the inspiring experiences of others. The StageSHIFT Coaching Certification Program has enabled coaches and executives to consolidate at conscious Synergist and shift onwards to Alchemist relative to your own readiness.

I hope you will decide to join the StageSHIFT Global Coaching Community by taking part in this program. If you have any questions or wonderings, please email me or set up a meeting with me. I always like to connect with participants beforehand and I look forward to sharing our evolutionary journeys.

Warmest wishes and abundant blessings,

Dr Antoinette Braks

Why We Urgently Need to Invest in Our Vertical Evolution

As a society we're currently shifting, or, more accurately, crashing into the 4th person perspective of "we" highlighting our diversity and divergence. This is in direct contrast to our 2nd person perspective of compliance and complicity on which our society is based. We are evolving from a top-down institutional collective to a peer distributed collective. This is why the world is becoming so polarised. We have the privileged hanging onto their dominance, the industrial worker stuck with obsolescence, and new generations appropriately demanding equivalence in the digital age.

WHAT YOU'LL LEARN INSIDE THIS PROGRAM

The StageSHIFT Coaching Certification Program takes you through the theoretical concepts and their pragmatic application to provide you with an evidence-based accelerated pathway to later stages of consciousness and leadership effectiveness at Synergist and beyond. The unique blend of strategic, holistic and transforming leadership development frameworks and techniques provides you with a fully rounded and balanced approach to Vertical Development.

The ***Strategic Leadership*** modules enable you to focus explicitly on building your coaching practice or executive influence to master the frameworks and build your leadership presence. You can then coach strategic leaders in the application of these concepts and processes in their organisations so they can lift engagement and accountability to liberate the vertical development of latent talent and evolve the organisation to Green and onto Teal.

The ***Holistic Leadership*** modules are focused on cultivating the self, healing shadow and embodying spirit. The aspirational focus stimulates transformation at the heart of identity. The concepts and processes focus on deepening self-awareness and the development of personal presence to create and maintain psychologically safe space for others. They have direct application to organisations.

The **Transforming Leadership** modules equip you with the guided processes and frameworks to express your authentic voice to your world. You'll have the opportunity to renew your understanding of your story and reframe your life to grow in loving abundance, gracious self-expression and reverence for others and the sanctity of life itself. You will discover how to share your life experience and shape your life's journey with an expanding and increasingly compassionate wise presence.

The nature of **Transformative Coaching** involves a much deeper and expanded view of the coaching partnership that expedites vertical leadership development. Rather than collaborating on navigating interpersonal dynamics, a 4th/5th person coaching perspective enables a dialogical inquiry into a more expansive space of insight, revelation and illumination. Extending direct invitations to coachees is another aspect of Transformative Coaching from a later stage perspective.

Everyone who applies themselves to the Program expands to later stages, including leaning into the 5th person perspective, and, for a few, onto Alchemist. The research indicates that 80% of executives employing the StageSHIFT coaching approach shift a single stage in one year after just an average of 8 coaching sessions and 20% complete a double shift in that time.

Once you've embarked on the StageSHIFT Program, you'll be able to position yourself as a Transformative Executive Coach in Vertical Leadership Development and/or Vertical Management Consultant in Enterprise Evolution. You'll receive access to StageSHIFT Brand Collateral and you're welcome to partner with Dr Antoinette Braks as a Coaching Supervisor or Consulting Partner to win and lead new assignments in Vertical Leadership Development and Enterprise Evolution.

You're also able to become certified to offer the Vertical Holistic Leadership Profile (VHLP) to others, and there are more StageSHIFT productised services in the pipeline that you'll be able to leverage.

TESTIMONIALS

Jessica Löwenhielm, Exec Coach

I am blown away and mesmerised by the devotion and amount of knowledge, research, techniques and tools that Antoinette has put together!

Not only has she helped me to take my own coaching practice and our leadership development programs to a totally new level of impact, she has also elevated my own consciousness stimulating, uplifting and freeing the mind, heart and soul.

I will be forever grateful for Antoinette helping me to fully understand and grasp the vastness, importance and grandness of vertical development, yet making it easy to start implementing, infusing and transforming my own work and its impact on my clients.

Without her firm, generous, friendly, thought-provoking, heart-opening and soul-freeing guidance, I wouldn't be where I am today: totally on purpose with a big mind, open heart and free soul for inner bliss and the greater good. I feel honoured to be taught by her, proud to call her a colleague and grateful to have her in my life and work.

Antoinette is the most aspirational, knowledgeable and loving leader I have come across. She is the go-to thought leader, mentor and guide in the field of vertical development. Catch her and her program if you can - it might be the most uplifting and expediting decision of your life time.

Marianne Borg Hyökki, Exec Coach

I met Antoinette the first time in the EMCC conference in June 2020. I chose her webinar and was absolutely energized and inspired by it. She offered a free consultation and I jumped on that. During the Summer I moved the call a few times, and even thought that I cancel it. Luckily I did not!

This is not only a coach training, it is most of all a developmental program for myself, while I simultaneously learn about vertical development and how to support my coaching clients to grow and mature. Now with six modules behind me, I have learnt so much in this extremely generous program. The whole concept is firmly based in scientific research.

The videos, written material and the webinars are full of interesting stuff, which helps me think about myself, my thoughts, reactions and behaviour at the core of myself. Antoinette supports in a loving and peaceful way and challenges me to go deeper.

Paul Smith, Executive Coach

I first met Antoinette at an EMCC national conference in 2019 and was immediately absorbed by her practical material and philosophy on vertical leadership development. This led to a two day workshop and ultimately, enrolment in Antoinette's Stageshift Coaching Programme.

I feel and believe strongly that this is "the real deal" in executive leadership development.

Not only is its peer-reviewed research platform impeccable, but in the degree of integrity and integration that pervades the whole approach. This is hard to convey without shared direct experience, as so many aspects are brought together here.

At a humble attempt, I would say that it is unrivalled in its blend of science and applied wisdom, inner work and outer application and in the extent of the inner more conscious self that evolves, expressed both in embodied leadership presence and its effects on others, and leading, directly, into organisational culture and behavioural change.

Sharifah Raudhah AlQudsy, Executive Coach

I was preparing myself to be the solid holding space for CEOs and strategic leaders to expand their leadership and I knew I needed to do specialised inner work with someone who is very established at a mature stage of consciousness. Serendipity works its magic and Dr Antoinette Braks appeared.

I quickly saw that her extensive practice and the depth of her research was the approach that would equip me to become whole as a Transformative Coach and Enterprise Evolution Consultant.

Throughout our frequent engagement in our fortnightly discovery dialogues, Antoinette presents her authenticity, and her highly generous and caring spirit. She weaves her expertise in Vertical Development and Enterprise Evolution with ease and grace.

Her pragmatism, expansive vision and beautiful resonance shines through the framework she has developed to bring about deep consciousness to the mature 4th person perspective, while having reverence to all the previous 1st, 2nd and 3rd as well as 5th person.

I notice that I bring more rigour, courage and crystal-clear intent to my coaching practice in recent months and I can only credit Dr Antoinette's brilliant guidance for this subtle integrated shift. I highly recommend partnering with her if you are a coach who aspires to expand your capacity to contribute to the evolution of your client leaders and their enterprises.

Heather Monro, Exec Coach

Antoinette's coaching approach is highly thought provoking, collaborative and uplifting. She has challenged and supported me to articulate concepts and ideas that have been just beyond my reach. I am already benefiting from more congruence with my evolutionary aspirations and clarity regarding my strategic direction.

The coaching is helping me to shape my coaching business so I can more effectively generate transformative change and liberate the energy of potential bound up in human hearts and souls. I feel very excited and inspired to continue our coaching relationship. I would highly recommend Antoinette's coaching services for aspirational leaders wanting to take their organisations to the next level.

Corinna Kingston, Exec Coach

I first heard Antoinette speak at an EMCC conference and was immediately captured by her insights on vertical leadership development and her own StageSHIFT model, so when the opportunity arose to train with her I didn't have to think about it twice! As a coach myself, I've found Antoinette's teachings and methodology offers a very timely and practical approach to being of optimal service when working with leaders into today's fast paced, disruptive and very volatile environment.

Her valuable process offers both an introspective approach to our own coaching practices whilst simultaneously developing our intervention skills, through a mixture of transformative coaching, organisational development techniques and so much more, to enable leaders the opportunity to learn how to pivot in their leadership and show up on a manner that is far more impactful creating a ripple effect that cascades the organisation!

Antoinette's deep knowledge, practical expertise and utter passion for her subject is awe-inspiring. She has clearly dedicated herself to sharing her aspirational vision with the world through her life changing work and I feel privileged to be a small part of that journey. From the perspective of a business leader and/or an Executive I would have no hesitation in recommending Antoinette's exemplary work.

Jenny Hoffman, Exec Coach

The StageSHIFT Coaching Certification Program is a beautifully designed journey map illuminating the path for your own vertical evolution supported by powerful coaching from Antoinette. There are absolutely loads of frameworks and models that Antoinette elegantly weaves together providing a thorough theoretical backdrop for your learning and delivered in manageable and well structured modules.

The small group format provides a safe space to challenge yourself supported by a very generous amount of individual and group coaching to accelerate learning, growth and development.
